PROVIDING IPSELATERAL)
THERAPY)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicant brings to the attention of the Examiner the documents listed on the attached PTO/SB/08 form. Applicant is filing this Supplemental Information Disclosure Statement (IDS) before the mailing date of a first Office Action on the merits for the above-referenced application, to the undersigned's knowledge at the time of filing. This IDS supplements the IDS filed on March 5, 2004.

Copies of the listed foreign and non-patent literature documents are attached. Copies of the U.S. patents and U.S. patent publications are not enclosed. Applicant respectfully requests that the Examiner consider the listed documents and indicate their consideration by making appropriate notation on the attached PTO/SB/08 form.

The relevance of two non-English language documents, D'AIOTOLO et al., "Tratamiento De Las Arritmias Cardiacas" ("D'Aiotolo"), and SILVA, "Influencia de la

Localizacion de la Estimulacion Electrica Ventricular Sobre la Eficiencia Cardiaca. Estudio Experimental Y Clinico" ("Silva"), is set forth below.

D'Aiotolo generally discloses "Treatment of Cardiac Arrhythmias," in particular, Chapter I is the "Introduction." Chapter II discusses "Physiology of Cardiac Rhythm." Chapter III discusses "Physiopathology of Arrhythmias." Chapter IV discusses "Pharmacology of Anti-Arrhythmic Drugs." Chapter V discusses "Pharmacologic Treatment of Arrhythmias." Chapter VI discusses "Rhythmic Electric Stimulation - Cardiac Pacemakers." Chapter VII discusses "Indications/Procedures, Results, and Complications from Pacemaker Implantations." Chapter VIII discusses "Arrhythmias in Patients with Artificial Cardiac Pacemakers." Chapter IX discusses "Paired and Coupled Pacemakers and their use in Treatment of Arrhythmias and Cardiac Insufficiency." Chapter X discusses "Electrophysiological Studies in the Human Heart." Chapter XI discusses "Cardioversion [electric shock to heart], Theoretical and Experimental Fundamentals, Clinical Uses, and Indications/Procedures. Finally, Chapter XII discusses "Intensive Care Units."

Silva is a doctoral dissertation that generally discloses "Effect of Location of Ventricular Electrical Stimulation on Cardiac Efficiency – Experimental and Clinic Study." In particular, Chapter 1 is the "Introduction," with Section 1.1 setting forth the background and fundamentals of the study. Section 1.1.1 discusses Permanent cardiac stimulation: evolution and current status. Section 1.1.2 discusses prior studies on the influence of the place of cardiac stimulation on hemodynamic (blood circulation) parameters and continuing interest in this line of research. Section 1.1.3 discusses the mechanics of ventricular contraction. Section 1.2 discusses comments on the methodology followed. Section 1.2.1 discusses an experimental model: electric activation (stimulation) in dogs – an epicardic map. Section 1.2.2 discusses the clinical (work), evaluation (& follow up) methods. Chapter 2 is the "Objectives." Chapter 3 is the

"Materials and Methods," with Section 3.1 discussing the experimental model and 3.2 discussing the clinical work. Chapters 4, 5, 6, 7, and 8 are the "Results," "Discussion," "Conclusions," "Summary," and "References," respectively.

In lieu of a statement of relevance for the remaining non-English language documents, English-language Abstracts are provided.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the listed documents are material or constitute "prior art." If the Examiner applies any or all of the documents as prior art against any claim in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, Applicant reserves the right to present the relevant facts and law to the Office regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should any or all of the documents be applied against the claims of the present application.

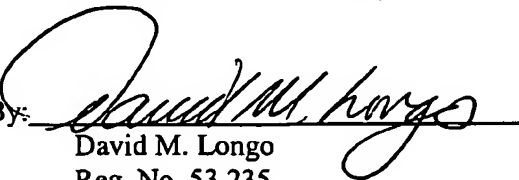

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.

Dated: April 11, 2006

Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicant brings to the attention of the Examiner the documents listed on the attached PTO/SB/08 form. Applicant is filing this Supplemental Information Disclosure Statement (IDS) before the mailing date of a first Office Action on the merits for the above-referenced application, to the undersigned's knowledge at the time of filing. This IDS supplements the IDSs filed on March 5, 2004 and April 11, 2006.

Copies of the listed documents are attached. Applicant respectfully requests that the Examiner consider the listed documents and indicate their consideration by making appropriate notation on the attached PTO/SB/08 form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the listed documents are material or constitute "prior art." If the Examiner applies any or all of the documents as prior art against any claim in the application and Applicant determines that the cited documents do not constitute "prior art" under

United States law, Applicant reserves the right to present the relevant facts and law to the Office regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should any or all of the documents be applied against the claims of the present application.

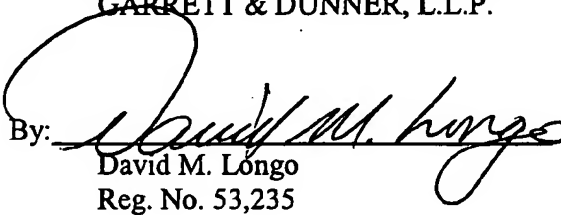

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.

Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), applicant brings to the attention of the Examiner the documents listed on the attached PTO 1449. This Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits for the above-referenced application.

Copies of the listed documents, including any copending patent applications, are attached.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed

documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and applicant determines that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
